Work experience

Clinical Director at Forensic and Mental Health Services, Inc. Responsible for the management of all clinical services the agency provides the Butler County Community. These services include diagnosis and assessment, outpatient psychiatry and counseling services, SAMI programming, community support program, ACT Team services, probate monitoring, managing the bed days at Summit Behavioral, crisis services for the county and residential programming for the severely mentally disabled adults. Supervised training of all clinical staff regarding medical necessity, all aspects of clinical documentation, implementation of psycho-social rehabilitation and conversion to paperless documentation.

Case Management and Residential Programming Supervisor at Forensic and Mental Health Services, Inc. Responsible for 1.6 million dollar residential program. Supervised intensive community support, counselors and a SAMI program. Responsible for implementation of psychiatric rehabilitation model of services and on going training of counselors and community support workers. Supervised the Butler County Probate and Conditional Release Monitor. Participated as a member of the management team responsible for managing all aspects of the agency.

Clinical Director at The CAM Program of the Center for Interventions Treatment and Addictions Research, Wright State Medical School. Responsible for the clinical supervision and training of all outpatient drug and alcohol treatment clinicians, the design and implementation of new programming, and all CQI activities. CAM was partially funded by federal grants for research purposes. I worked closely with the research team at the medical school coordinating and supervising the collection of data.

Clinical Director at the Center of Warren and Clinton Counties. Responsible for the supervision of outpatient mental health and drug and alcohol services for adults and children in four offices located in two counties. Services included contracts with managed care and employee assistance programs, outpatient psychiatric and counseling, community support services and school based services for children. I was responsible for on going training of all clinical staff and implementation of psychiatric rehabilitation model of treatment.

Clinical Supervisor of clinical staff located at the Wilmington Office of the Center of Warren and Clinton Counties. Responsible for supervision of outpatient mental health and drug and alcohol services for adults and children in Clinton County. Services included contracts with managed care and employee assistance programs, psychiatric, counseling and community support services. Responsible for on going training of clinical staff and provided live supervised family therapy training. I was also a member of the management team responsible for all CQI activities of the agency.

Therapist at The Center of Warren and Clinton Counties. Responsibilities included assessment and diagnosis of mental and emotional disorders and counseling for adults, families and children. I was trained to be a member of a team of counselors to provide critical incident debriefing in Clinton and Warren Counties.

Therapist at Community Mental Health Centers of Warren County. Responsibilities included assessment and diagnosis of mental and emotional disorders. Provided brief individual, family and marriage counseling, crisis intervention, assessments and referrals for appropriate care and pre-screening for hospitalization.

Counselor at the Crisis Counseling Center of Warren and Clinton Counties. Responsibilities included assessment and diagnosis of mental and emotional disorders. Provided brief individual, family and marriage counseling, crisis intervention, assessments and referrals for appropriate care and pre-screening for hospitalization.
